Taksha SmartLabz

- ◀ 01 **Taksha SmartLabz Academic One To One Live Tutoring**
- ◀ 02 **Full Stack Online Learning Platform With Content**
- ◀ 03 **Academic Support Services**
- ◀ 04 **Value Added Services**

Taksha SmartLabz, an EdTech venture, was launched in USA with a vision to integrate and advance the teaching and learning through education technology for the students in need through a platform accessible to the global learning community. Over the years SmartLabz have evolved as a full-fledged technology platform with global partners, scaling 360-degree education to students from all across the world.

SmartLabz started as an alternative to more costly online tutoring platforms to provide an innovative online solution for school children to have access to live tutors for one-on-one help. Now it offers high school examination services in Caribbean countries, Nigeria, South Africa and Zambia, along with USA.

SmartLabz evolved as an online program management company for global universities offering recruitment to graduation support to scale their business to countries globally. Services offered by SmartLabz are outlined below.
